Each number indicates the total population of that "population unit" area. Each district must have essentially equal population. The population of each of the 5 districts must be close to 14,680, with no more than a 1,468 difference between the largest and smallest.

An online version of this map that allows you to zoom in and out for more detail is available as a link from [drawredlands.org](http://drawredlands.org).
